

# VISITOR CAMPUS SAFETY FEATURE

The safety of our students is always a top priority at Sarasota Christian School. That's why we have the **visitor scanning software**, Raptorware Visitor Management System.

## What You Need To Know:

☞ Parents and visitors to our campus are required to have their **driver's license scanned** at the front desk in order to obtain a visitor/volunteer badge that will allow them to be on campus outside of the normal pick up and drop off times.

☞ Once your driver's license is on file, each time you're on campus you can check-in and receive your visitor/volunteer badge quickly and easily without having to present your license.

☞ **Save yourself time later by having your license scanned at the front office during Back-to-School Night.**
